

How to clean a regularly maintained Nora floor using Diamond by Gorilla pads.

Purpose

To routinely maintain a Nora floor.

Supplies and Equipment needed

Wet floor signs

Dust mop, frame, handle and dust pan

Auto scrubber

Electric or battery burnisher

3000 grit Diamond by Gorilla pad in the appropriate size for your equipment

Neutral Cleaner

Fresh water

Procedure

1. Prepare to clean the floor.
 - a. Dust mop area to be cleaned and pick up the debris.
 - b. Place wet floor signs around the area you will be cleaning.
 - c. Fill the auto scrubber to the desired level with fresh water.
 - d. Add the appropriate dilution of neutral cleaner.
 - e. Place a 3000 grit DBG pad on the auto scrubber.
2. Make a pass with auto scrubber, solution on, pads down and squeegee down with the vacuum on to pick up the solution.

3. Place a 3000 grit DBG pad on your burnisher and burnish the area you just cleaned.

Accomplishment

By cleaning your Nora floor regularly, you will reduce the need for restoring your Nora floor and achieve a clean, shiny and attractive appearance for your floors.
